

Goodfellow AFB, TX

Job Title: Aerospace Ground Equipment (AGE) Mechanic – Firefighter Training Support

Location: Goodfellow AFB, TX | Full-Time | Security Clearance Required

About the Role

Not your typical AGE role! Join our team supporting **military firefighter training** by maintaining **mocked aircraft, air compressors, fire ladders, and facility support systems**. Apply your AGE expertise in a **safe, structured training environment** while helping prepare the next generation of military firefighters. This unique position blends traditional AGE skills with hands-on maintenance of **training and support equipment** that keeps our Fire School operating efficiently.

Key Responsibilities

- Conduct preventive maintenance and inspections on **mocked aircraft equipment, air compressors, fire ladders, and other training devices**.
 - Troubleshoot, repair, and maintain mechanical and electrical systems on AGE and **facility support equipment**.
 - Perform scheduled and unscheduled maintenance to maintain operational readiness of all training systems.
 - Record maintenance and inspection actions accurately using AFTO Forms 244 or electronic tracking systems.
 - Ensure compliance with company, OSHA, AFOSH, and customer safety requirements.
 - Perform other duties as assigned to support the smooth operation of training and facility systems.
-

Required Skills & Experience

- Minimum **5 years of experience** in AGE or aircraft trainer maintenance (military or civilian).
 - Strong mechanical, electrical, and troubleshooting skills.
 - Ability to read, understand, and interpret technical manuals, work cards, and technical orders.
 - Professional, courteous, and effective communication with training personnel and customers.
 - Ability to work in varied environments, from indoor facilities to outdoor training areas.
 - Eligible for required security clearance.
-

Preferred Skills

- Experience maintaining **compressed air systems, facility support systems, or firefighter training devices**.
- Familiarity with **AFTO Forms 244** and computer-based maintenance tracking systems.

Working Conditions

This role involves a variety of working environments, from controlled indoor facilities to outdoor training areas exposed to weather conditions. Noise, dust, and other elements may require proper protective equipment.

Why Join Us

- Work in a **dynamic, educational environment** supporting military firefighter training.
- Apply AGE expertise in a **safe, structured setting**, not on an operational flight line.
- Work on a **wide variety of equipment**, including simulated aircraft and facility support systems.
- Play a direct role in **training the next generation of military firefighters**.
